About Me

My vision:

My hearing:

How I communicate:

How I show what I like:

How I show what I don't like:

How I sit in the classroom:

How I move around at school:

My interests:

How I currently access a computer or tablet:

My IEP goals and educational tasks that require assistive technology:

1. My Team

Teacher:

Email:

Other key education staff (Education Assistants, Deputy Principal, Learning Support Coordinator):

Speech Pathologist:

Organisation:

Email:

Occupational Therapist:

2. My Eye Gaze

a) My current eye gaze skill level

With experience and practice I will learn to develop my eye gaze skills. Use the following framework to indicate my current skill level. This can be used to guide the development of my goals and identify suitable eye gaze activities.

Objective	Not observed	Developing	Achieved
Key 1: Experimental Learning			
I can tolerate eye gaze equipment being positioned near them.			
I can look, react or respond to an activity on the eye gaze device			
Key 2: Making Something Happen			
I can independently use their eye gaze to produce a desired effect on the screen.			
Key 3: Mastering Skills for Access: Eye Gaze Specific Skills			
Key 3A: Targeting			
I can independently locate targets on the screen to produce a desired effect.			
Key 3B: Dwelling			
I can look at and 'quick dwell' to select targets to produce a desired effect.			
Key 4: Choosing Independently			
Key 4A: Failure Free Choosing			
I can choose one item from three or more on-screen options, where there is no correct answer and any choice is rewarded.			
Key 4B: Finding the right one			
I can choose one item from three or more on-screen options in regard to a request or question.			
Key 5: Independently accessing a range of functional activities			
I can use eye gaze independently to participate in one or more functional activities			

Adapted from *Unlocking Abilities Eye Gaze Monitoring sheet*

b) My daily eye gaze use

Engaging in Eye Gaze: Access All Learning Areas

Think about:

- Other physical tasks in my day e.g. standing or swimming
- Whether my health impacts on your eye gaze use
- Whether I change rooms throughout the day and need to bring the eye gaze device

Best time for me to use eye gaze

Length of time before I get tired (this may change over time)

Where I need to use my eye gaze device e.g. classroom, outdoors

c) What prompts to give me when using eye gaze

Think about:

- How long to pause between verbal prompts
- How many steps I can manage in an instruction
- Whether using the touchscreen will confuse me (consider using mouse or pipe cleaner)
- If I need physical or verbal prompts to help with my head position

d) My vision needs

Think about:

- Whether I need colour contrast to accommodate for vision difficulties
- The size of targets on the screen
- Whether I need to calibrate for one eye only

e) My preferred eye gaze position

Think about:

- If my position changes throughout the day
- If I use tilt or recline in my wheelchair
- Whether additional posture supports will make it easier to use my eye gaze e.g. belts and harnesses, headrest.

3. My Goals

Use this chart to document my goals using Goal Attainment Scaling (GAS) Framework. This framework helps to measure the extent to which my goal is achieved. Place the expected goal in the centre column under 0. Use the other four columns to document what the goal would look like if I achieve less than expected (-2), stay at the same level (-1), achieve more than expected (+1) or achieve much more than expected (+2). Make sure the goals are SMART. For more information refer to **Eye Gaze: Access All Learning Areas Factors for Success** section on **Write Goals** (from page 3).

Goal	-2 Much less than expected	-1 Less than expected	0 Expected	+1 More than expected	+2 Much more than expected

4. The Plan to Achieve My Goals

Use this chart to develop a plan for how to achieve my goals. Record the software that will be used to work towards the goals and make note of any pre-made activities that are available and any activities that will need to be developed or adapted. Record the roles and responsibilities of each team member to make sure everyone knows what to do. For more information refer to **Eye Gaze: Access All Learning Areas Factors for Success** section on **Document Plan** (from page 8).

Goal	My expected outcomes	Plan and strategies to achieve my goal	Who	By

5. Timetable

This timetable can be used to plan opportunities for me to work on my eye gaze goals. For example, if my goal is to complete a book reading activity twice a week identify the most suitable time and make sure all my support team are aware of the plan. Use the information gathered in the *My Eye Gaze* section to help select the best time of day and length of time.

	Monday	Tuesday	Wednesday	Thursday	Friday
Recess					
Lunch

6. Goal Tracking

Use this section to regularly record my progress towards my goals. Working from left to right: record the week of term, place a tick under the column that represents how I performed that week (in reference to my GAS goals on page 9). Make any comments about my performance such as mood, level of energy, amount of prompting needed.

Expected outcome: <i>[Insert expected outcome goal 1]</i>						
Week	-2	-1	0	+1	+2	Comments

Expected outcome: *[Insert expected outcome goal 2]*

Week	-2	-1	0	+1	+2	Comments

Expected outcome: *[Insert expected outcome goal 3]*

Week	-2	-1	0	+1	+2	Comments

7. My Goal Review

It is important to review my goals at the end of the agreed timeframe (e.g. term, semester or school year). Record how I performed against what was expected. Identify what worked well, what needs improvement, what else I want eye gaze to help me with or if I need to consider a different access method for these tasks. For more information refer to **Eye Gaze: Access All Learning Areas Factors for Success** section on **Evaluate Goals** (from page 10) and **Plan Next Steps** (from page 14).

Expected Outcome	Attained performance	Comments	Next steps
